

PAYYAVULA SAI AJAY KUMAR

Eluru, Andhra Pradesh | 8885206674 | payyavulasaiajaykumar@gmail.com | [LinkedIn](#) | [GitHub](#)

CAREER OBJECTIVE

Motivated and enthusiastic Artificial Intelligence and Machine Learning student with strong foundations in Python development and problem-solving. Seeking opportunities to gain hands-on experience through real-world projects and internships while contributing technical skills and adaptability to innovative solutions.

EDUCATION

B.Tech – Artificial Intelligence & Machine Learning (2023 – Present)

Ramachandra College of Engineering, Eluru (JNTUK) – CGPA: 7.6

Intermediate (MPC) – 2023

Sri Chaitanya Junior College – CGPA: 8.31

SSC – 2021

Brilliant's Public School – CGPA: 9.05

TECHNICAL SKILLS

- **Programming Languages:** Python, C, HTML, CSS
- **Machine Learning:** Classification, Regression, Scikit-learn, Predictive Modeling
- **Libraries:** NumPy, Pandas, Matplotlib, Seaborn
- **Tools & Platforms:** GitHub, Google Colab, VS Code, Jupyter Notebook

INTERSHIPS

Artificial Intelligence & Machine Learning Intern – Edunet Foundation (IBM SkillsBuild Program) (Jul - Aug 2023)

- Developed and optimized an Employee Salary Prediction system using Python, Pandas, and Scikit-learn with data preprocessing and Machine Learning techniques.
- Project Link: <https://github.com/ajaypayyavula/ibm-aicte>

Python Programming Intern – Cognifyz Technologies (Jun – Jul 2025)

- Developed Python applications, web scraping tools, and data visualization dashboards using Matplotlib and Seaborn for real-world problem-solving.
- Project Link: <https://github.com/ajaypayyavula/Cognifyz>

PROJECTS

Employee Salary Prediction System

- Built and deployed a machine learning model achieving high prediction accuracy using Python and Scikit-learn.
- Performed end-to-end preprocessing, feature engineering, and model training.
- Compared Linear Regression and Random Forest, achieving high R^2 and low RMSE for better prediction accuracy.
- GitHub: <https://github.com/ajaypayyavula/ibm-aicte>

Restaurant Data Analysis and Prediction System

- Developed data analysis and visualization models for analyzing 1000+ restaurant records using Python, Pandas, Matplotlib, and Seaborn.
- Performed data preprocessing, feature engineering, and predictive analysis using Machine Learning techniques.
- Analyzed customer ratings, cuisines, and restaurant trends to generate meaningful business insights.
- GitHub: <https://github.com/ajaypayyavula/Cognifyz>

CERTIFICATIONS

- Python Programming - UniAthena
- Java Programming - Infosys
- C Programming - Simplilearn
- Artificial Intelligence - Infosys, HP LIFE
- Introduction to Internet of Things (Elite) – NPTEL
- Database Management System – NPTEL

ACTIVITIES & WORKSHOPS

- Active member of college cultural activities, specializing in dance performances.
- Attended workshop on Agentic AI and autonomous AI systems.
